

信安強積金計劃800系列 Principal MPF Scheme Series 800

所有資料截至2009年12月31日 All information as at 31/12/2009

重要提示 Important Notes:

1. 信安美國股票基金(「本基金」)投資於由美國信安保險有限公司(「信安」)所發行的保單,因此您在本基金內的投資會受信安的信用風險所影響。
The Principal US Equity Fund (the "Fund") invests solely in an insurance policy issued by Principal Insurance Company (Hong Kong) Limited ("Principal"). Your investments in this Fund are therefore subject to the credit risk of Principal.
2. 本基金投資於單一國家,與投資較為分散的基金比較,其集中風險相對較高,因此其價格可以較為波動。
The Fund invests in a single country. Compared with a well-diversified fund, its concentration risk is relatively high and hence it might be more volatile than a well-diversified fund.
3. 當您作出投資選擇前,您必須衡量個人可承受風險的程度及您的財政狀況。在選擇基金時,如您就某一項基金是否適合您(包括是否符合您的投資目標)而有任何疑問,請徵詢財務及/或專業人士的意見,並因應您的個人狀況而選擇最適合您的基金。
You should consider your own risk tolerance level and financial circumstances before making any investment choices. When, in your selection of funds, you are in doubt as to whether a certain fund is suitable for you (including whether it is consistent with your investment objectives), you should seek financial and/or professional advice and choose the fund(s) most suitable for you, taking into account your own circumstances.
4. 您不應單靠此宣傳品作出投資決定。您必須參閱信安強積金計劃800系列的主要推銷刊物,以便獲得進一步資料(包括投資政策、風險因素、費用、收費及成分基金資料)。
You should not invest in reliance on this marketing material alone. You should read the Principal Brochure of Principal MPF Scheme Series 800 for further details (including investment policy, risk factors, fee and charges and constituent fund information).

信安美國股票基金 Principal U.S. Equity Fund

投資目標 Investment Objective

透過投資於美國股票市場以取得長線資本增長。
To achieve capital growth over the long-term by investing in US equity markets.

基金評述 Fund Commentary

標準普爾500指數於2009年第四季攀升6.09%,大型股表現領先小型股,價值型股落後於增長型股。本季除金融股外,各類股份均全面攀升,其中資訊科技、多元化消費品及健康護理股升勢最佳。

基金季內落後於標準普爾500指數。投資組合選持的常用消費品及物料股造好,帶來最大增益,但多元化消費品、工業及金融股選持則造成拖累。

我們的投資宗旨將維持不變,基金仍會投資於經營基調持續改善、投資者預期向好和相對估值較吸引的股份。投資組合的結構策略是相對指數的市場、股類及行業持平,目標是以選股為主要策略,藉着挑選優質股份爭取理想回報,促使基金創出領先表現。

The S&P 500 Index posted a positive return of 6.09% for the fourth quarter 2009. Large-cap stocks outperformed small-cap stocks and value stocks underperformed growth stocks. All of the sectors except for the financials sector posted positive returns for the quarter with the information technology, consumer discretionary and health care sectors performing the best for the quarter.

The fund underperformed the S&P 500 Index for the fourth quarter. Stock selection in the consumer staples and materials sectors was the most effective for the quarter, while stock selection in the consumer discretionary, industrials and financials sectors was less effective.

We remain committed to our investment philosophy and will continue to invest in securities with improving business fundamentals, rising investor expectations and attractive valuations. Our portfolio construction strategies neutralize market, sector, and industry exposures, relative to the index, in order to isolate superior stock selection as the major source of portfolio outperformance.

提供FER旨在讓計劃成員據以估算基金投資的開支總額,包括成分基金以下集體投資計劃(簡稱「CIS」)所引致的成本。計劃成員須直接支付的開支則不包括在內。

The purpose of FER is to provide a measure of the total level of expenses incurred in investing through a fund, including the costs incurred at lower level collective investment schemes but not including those expenses paid directly by the scheme member.

投資涉及風險,過往業績並不代表將來表現。基金價值可升可跌。詳情請參閱信安強積金計劃800系列的主要推銷刊物,以便獲得進一步資料(包括投資政策、風險因素、費用、收費及成分基金資料)。

Investment involves risks and past performance is not indicative of future performance. The value of the funds may go up or down. Please refer to the Principal Brochure of Principal MPF Scheme Series 800 for further details (including investment policy, risk factors, fee and charges and constituent fund information).
